Heavy Metals Intoxication

Overall Intoxication

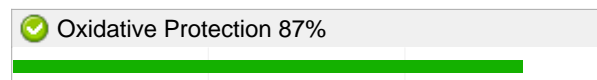

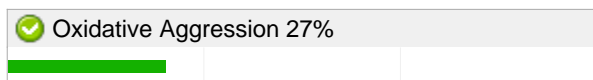

Suspicion of the blockage for the elimination of heavy metals due to the possible lack of sulfur conjugation.

Comments

Methodology	Comments
Spectrophotometry Palm hand	Hi Jo, to supplement low Magnesium, Silicon and Iodine levels Take green vegetables, Magnesium-Citrate 1250 mg 2x1, bamboo shoots/powder and Nettle tea, Kelp, or Lugol's Iodine drops 5/day. To detox toxic heavy metals take organic tomato soup (Potassium) with a table spoon of Koriander, Curcuma, bamboo powder, onions, garlic. Check sources of aluminium, lead, mercury. Replace Mercury containing fillings, after that consider zeolite powder, DMSA, Reishi mushroom extract.

Caution! These values are not for diagnostic purposes; these are only an interpretation of correlations between minerals & oligo-elements tested with Oligoscan

The Oligoscan test is only a summary.

The Oligoscan test is only a summary of individual measurements.
